

Environment Policy

We are committed to minimising the environmental impact of our operations and our products through the adoption of sustainable practices and continuous improvement in environmental performance.

Our Policy Principles:

Compliance

To meet the requirements of relevant legislation in the regions in which we operate.

Management Systems

To implement effective environmental management systems and to ensure the environmental awareness of our workforce, encouraging every employee to act in an environmentally responsible manner.

Continuous Improvement

To improve the environmental performance of our processes and products, preventing and reducing emissions and releases, minimising waste and controlling noise.

Sustainable development

To contribute to sustainable development by using energy, water and raw materials more efficiently, thus optimising our use of natural resources.

Product stewardship

To promote the recovery, recycling and reuse of our products and to work with our customers to understand the environmental effects of our products throughout their life cycle.

Monitoring & reporting

To monitor / audit environmental performance and to report progress on policy objectives and improvement targets on a regular basis.

Suppliers & contractors

To encourage suppliers and contractors to behave in a responsible manner and to maintain sound environmental practices.

Local communities & biodiversity

To respond to the concerns of local communities and other interested parties on environmental issues and to respect the general environment and wildlife habitats in and around our sites.
